

Kind People by Nathanael Thola (Preschool)

I was sick because I had pink eye and a fever. I went to the hospital. I was sad at the hospital and I just wanted to come home. It seemed like I was there a very long time. When I was at the hospital they gave me a blanket to keep and some toys like a plastic blue snake. I really liked the soft blanket and the toy snake. I know that someone made that blanket and gave it to the hospital for when kids are there and are sad. I love carrying blankets around with me. It made me feel a little better.

I came home from the hospital but I was still sick for a while. Then Miss Natalie sent me a box of crayons. They were special because they were letters N-A-T-H-A-N-A-E-L which spell my name. Miss Natalie watches me and makes lunch and snack for me when Mommy is at work. I couldn't go to see her when I was sick and I missed her and my friends. It was kind that she sent me the letter crayons. I got better and now I can go see her again and that makes me happy.
