Things You Can Do At Home

Here are some things suggested by Miss Nicole that you can do at home.

Make a sensory bag. Using a clipboard or other hard, flat object, designate your up, down, and around. Tape a bag to the clipboard and then put some vegetable toys and hair gel into the bag. Zip the bag shut and have fun moving your vegetables up, down, and around the bag.

In a big bin, put dirt, black beans, rice, anything you can find to be your dirt. Get a little rake or spade and have fun in your "Garden".
