Things You Can Do At Home

Here are some things suggested by Miss Nicole that you can do at home.

Open up some cages at the zoo! Criss-cross yarn or string on a laundry basket. Place your zoo animals in the basket with a string tied to them. Use colored paper to label the ends of the string and use a similar colored paperclip, clothes pin, or other type of clip to grasp the label and then pull the animal out.

For more practice, grab the animals with your own hands but don't touch the string and don't let the animals touch the string!
