Things You Can Do At Home

Here are some things suggested by Miss Nicole that you can do at home.

Practice some counting. Make a caterpillar using paint, markers, pom-poms, anything you want, and count how many dots of a caterpillar you make. How many can you make before you run out of room?

Let's go grocery shopping! Hungry caterpillar certainly eats a lot. There are many things that he eats that you can find at the grocery store. Help your grownup make a grocery list. Do you use words to make your list? What about pictures? When you're at the grocery store, use the list you made to help put everything on that list in your shopping cart.
