Things You Can Do At Home

Here are some things suggested by Miss Nicole that you can do at home.

Can you make a Bark George sensory bin? Using a box, a containers, a paper bag, anything you'd like, place items inside. Have your child feel inside and describe what they feel. Does it feel bumpy, smooth, scratchy, something else? Make sure they use lots of descriptive words to describe what they feel and then then can guess what they are feeling.

Mr. George told the story of Bark, George without needing a book! Can you tell the story without the book? Gather any animals you'd like to use and tell the story in your words.
