5 Things You Can Do At Home

Here are some things suggested by Miss Nicole that you can do at home.

- 1) I Spy: Choose an object within sight and announces that "I spy with my little eye, something....." name a color, shape, letter that item begins with and have your child guess what you see.
- 2) Scavenger Hunt: Name an item, it can be anything, and have your child try to find it. Create a list and help them check the items off.
- 3) Eye Contact Game: Stare at something and your child has to guess what you're staring at. Try it with stuffed animals.
- 4) Leap Frog: Print off some pictures of one animal. Make sure they all look different. Scatter the pictures throughout the room and then have your child hop from picture to picture while they describe what's different about that animal in the picture.
- 5) Animal Walks: How does a duck walk? How about a horse? Have a parade of animals!
